

Albertsons Commitment to Prescription Accuracy and Patient Care

The accurate filling of prescription medications is the highest priority at Albertsons pharmacies. Albertsons pharmacists take seriously their professional duty to fill prescriptions accurately. Further, each of our pharmacists is required to utilize the comprehensive accuracy verification procedures we have established for our stores.

Albertsons pharmacists are professional health care providers and must meet recognized community quality practice standards. Both the company and our customers expect that those standards will be met in filling each prescription. Albertsons policies require that patients be counseled on all new prescriptions and be offered counseling on all refilled prescriptions. The company takes very seriously any violations of this policy.

To ensure that our patients receive the highest quality of care, the company is also committed to hiring and training top level pharmacists and highly talented pharmacy team members. The company provides comprehensive and robust training to its pharmacy team to ensure that our pharmacy delivers unparalleled service and compliance.

Albertson's LLC is working to become the favorite food and drug retailer in every market it serves. The company employs more than 47,000 associates and operates stores under the Albertsons banner in Arizona, Arkansas, Colorado, Florida, Louisiana, Nebraska, New Mexico, Oklahoma, South Dakota, Texas and Wyoming.
