1. (U) **SITUATION. Change.**

1.A. (U) AQI and Extremists are using official GoI vehicles (ambulances, police vehicles, ministry vehicles and contract PSD vehicles) to transport weapons and contraband, and to generally support illegal activity.

1.B. (U) The Baghdad Operations Center (BOC), in cooperation and coordination with MND-B, will open weekly combined temporary checkpoints (TCPs) within the Baghdad Security Districts expressly targeting Iraqi vehicular traffic in order to accomplish three primary objectives: 1) to undermine the movement of terrorists and armed militias benefiting from government vehicles or official convoys; 2) to prevent illicit material trafficking; and 3) to reduce corruption within the Iraqi government. These checkpoints will be jointly manned and executed by CF and ISF.

1.C. (U) This FRAGO establishes procedures for CF Convoys, Personal Security Details (PSDs), Private Security Companies (PSCs), and low profile CF/USG personnel to use when encountering these TCPs. These procedures can also be used by Third Country National (TCN) Diplomatic Missions, as well as by GoI Tier 1 PSD Convoys. PSCs engaged in commercial activities that are not contracted by the U.S. Government, Coalition Forces, or TCN Diplomatic Missions, as well as GoI Tier
