Subject: New Job opening

Hi,

Going to school requires a serious commitment, but most students still need extra money for rent, food, gas, books, tuition, clothes, pleasure and a whole list of other things.

So what do you do? "Find some sort of work", but the problem is that many jobs are boring, have low pay and rigid/inflexible schedules. So you are in the middle of mid-terms and you need to study but you have to be at work, so your grades and education suffer at the expense of your "College Job".

Now you can do flexible work that fits your schedule! Our company and several nationwide companies want your help. We are looking to expand, by using independent workers we can do so without buying additional buildings and equipment. You can START IMMEDIATELY!

This type of work is Great for College and University Students who are seriously looking for extra income!

We have compiled and researched hundreds of research companies that are willing to pay you between \$5 and \$75 per hour simply to answer an online survey in the peacefulness of your own home. That's all there is to it, and there's no catch or gimmicks! We've put together the most reliable and reputable companies in the industry. Our list of research companies will allow you to earn \$5 to \$75 filling out surveys on the internet from home. One hour focus groups will earn you \$50 to \$150. It's as simple as that.

Our companies just want you to give them your opinion so that they can empower their own market research. Since your time is valuable, they are willing to pay you for it.
