

To You My Beloved,

I decided to seek for your help in carrying out my last WISH on Earth to humanity relying on your honesty and sincerity.

I picked you out from three personalities suggested to me after praying over them. I therefore hope you will never allow my dream die.

My name is Elizabeth Taylor. I am 74 years old, Hollywood diva and former wife of Richard Burton of America from whom I inherited a fortune worth over \$300 Million. But have over 9 Million Pounds deposited in a Financial Firm within Europe for charity purposes.

Presently, I am in a hospital in Island of North Oahu, Hawaii United States where I have been undergoing treatment for Alzbimer's disease battling with incurable heart condition,curvature of spine among others. I have since lost my ability to talk and my doctors have told me that I have only few months to live.

It is my last wish to see this money (9 Million Pounds) distributed to victims of the World unforeseen dissasters and other charitable organizations within the World.

Considering the fact that I have in the past trusted relations and friends, but was rewarded with deceit, betrayal, insincerity and wastage of my wealt since my present predicament,I no longer have the confidence in any of them to be entrusted with this humanitarian responsibilities. Friends today, Enemies tomorrow.

I kindly employ you in the name of Almighty to help me claim and receive the deposit from the firm and distribute (Donations) it accordingly using your good judgment in this regard.

Upon receipt of this deposit, you are required to keep 15% of it to yourself representing your expenses and efforts in claiming and receipt of the deposit.

If you are willing to help, please reply as soon as you can. May the Almighty bless you and see you through in carrying out this my last wish on Earth.

when I get your reply, I will then link you to my Attorney who will directly be dealing with you.

Sincerely Yours,

Lizzy Taylor.
