

The Residents and visitors of the Mata Grande Subdivision and surrounding properties petition the Mayor, Town council, BTB, and Saga to address 3 Issues affecting our safety, health and tourism. These problems are all at the residence of John McAfee.

1. 8-12 vicious dogs on his property are causing an unsafe environment for residents and tourists alike. These animals get loose and run as a pack. 3 residents have been bitten and three tourists have been attacked by various different animals on the beach and on neighboring properties. These are dangerous animals and need to be removed. Mr. McAfee was witness to an attack last Sunday on a young female tourist and did nothing about it even after his neighbor witnessed the attack and confronted Mr. McAfee. His dog attacked a tourist that was staying next door on their own property last year. He has a deaf dog which barks non-stop day and night, upsetting all residents and visitors in hearing distance. Mr. McAfee has been approached about this dog by various visitors and residents and still the barking continues daily.
2. The security guards at Mr. McAfee's residence have become dangerous to the residents and visitors alike. They walk around with shotguns at night up and down the beach on other peoples property. They have been known to shine spotlights right into peoples eyes at night and act aggressively with their guns, chambering a bullet and nonsense such as this. People are scared to walk down the beach at night as a result. The tourist's are terrified.
3. The traffic generated by Mr. McAfee is illegal. Taxis at all hours of the night, delivery trucks and constant mule traffic is disturbing and offensive to all the residents and tourist's staying up North. All commercial traffic ends at Las Terrazas.

As a result of this activity our property values are going down and the tourist only visit once. The tourist have complained about these issues at all the resorts and restaurants and to the management companies managing the rental homes. Mr. McAfee is quickly wearing out his welcome in the neighborhood. Mr. Mayor we are proud to have you as 1 of our resident landowners and call on you for help in these matters.
